

SUSTAINABLE PURCHASING POLICY

In line with the sustainable supply approach, our suppliers/solution partners;

- Having an Environmental Management System and/or internationally accepted certificates and sustainability labels/certificates,
- To act in accordance with the principles of 'Fair Trade' and 'Equal Opportunity' in purchasing products and services for our business.
- It has no harmful effects on the environment in production and supply and complies with environmental legislation,
- Resources; It uses/consumes appropriately, without harming natural life or the ecosystem, and complies with hunting bans,
- It works to minimize and manage its wastes correctly, and offers less packaging or bulk packaging alternatives in its product packaging,
- The disposable and consumable materials we have to use in our Purchasing Processes are recyclable,
- Environmentally friendly, economical, local, attaches importance to ethical values, uses recyclable or recycled materials, organic, bio, vegan, not tested on animals, does not contain harmful chemical components, etc. to offer alternatives
- Being a domestic and local production/service provider,
- It is a product/service that reflects/promotes the cuisine, traditions and culture of our country/region,
- Our suppliers should choose those who comply with the legislation defined within the framework of national and international laws on child labor and ensure that they do not hinder the education of children.
- We attach importance to this and convey this perspective to our stakeholder suppliers.

We try to create efficient purchasing opportunities with our suppliers and are committed to reducing the environmental impacts arising from procurement processes.
